

## WHAT ARE UFOs?

---

*“A deception of cosmic proportions is coming...” (Chuck Missler, “Alien Encounters”)*

---

### Why Should We Care About UFOs?

The Wikipedia definition of a UFO is: “...an object observed in the sky that is not readily identified. Most UFOs are later identified as conventional objects or phenomena. The term is widely used for claimed observations of extraterrestrial craft.”

Why should Christians be concerned about UFOs, and their occupants? According to many Christian researchers, more people believe in aliens than believe in God! Thanks to countless TV shows, documentaries, and movies, people have become fascinated by the subject, and are actually anticipating that alien technology will save our planet!

Christians could take this as an opportunity to lead others to Jesus Christ. If you know someone who believes that extraterrestrials “seeded” the earth and are watching over their creation from above, you could use this platform to share your own belief about God’s creation and how He sent His Son to save it. It should be done in a non-judgmental way, but it does open a door.

**A very important reason for Christians to stay informed about UFOs is due to what Bible prophecy watchers refer to as “the coming great deception”. More on that below.**

## Sightings

“...the appearance of unidentified flying objects is an ancient phenomenon which has perplexed...mankind from the beginning of written history.” (*Chuck Missler/Mark Eastman: “Alien Encounters”*.)

Famous UFO researcher and computer scientist, Jacques Vallee, has stated: “The folklore of every culture...had...stories about humanoid beings that flew in the sky ...” (*“Passport to Magonia”*). This includes Egypt, Mexico, the Americas (especially Native American cultures), Europe, Asia, India, etc.

Many of these ancient civilizations have also written texts describing “gods descending from the stars” and “fertilizing” human women. Supposedly, among the feats of these star people was the building of the Pyramids, whose stone blocks are put together with a precision that exceeds that of the tiles on our modern Space Shuttles! (*Eastman/Missler*).

The most famous UFO “visitation” is the Roswell, New Mexico, crash of 1947. A local rancher discovered unusual debris scattered over a large area of his property. He notified the sheriff, who in turn notified authorities at the nearby Roswell Air Field. The military promptly sealed the area. The first press release stated that a “crashed disk” was recovered. Almost immediately, a second press release rescinded the first one, claiming that a mistake had been made and the debris was from a downed weather balloon.

For the last seventy-plus years there have been allegations of a government cover-up, documented by several credible witnesses. The Roswell incident is still not satisfactorily explained, and may actually have been “a hoax within a hoax”. Whatever happened there, since that time the number of reported sightings has greatly increased. There have been literally millions—by ordinary citizens,

air traffic controllers, the military, law enforcement—the list goes on, including former U.S. Presidents and astronauts. \*

Sometimes the sightings are witnessed by dozens or even hundreds of people at the same time. Alleged landing sites have been found, along with scorch marks, indentations, radiation, etc. The carcasses of mutilated animals are sometimes found at the sites.

After weeding out weather phenomena, both conventional and military aircraft, and hoaxes, a large number of these cases are documented well enough to afford them credibility.

“There appear to be only three possible ways to account for what these people are seeing. If we are not in the grip of a massive hallucination—a hallucination that is being duplicated around the world, then either our airspace is being violated by technically advanced craft of unknown origin, or we are confronting a still greater mystery for which we do not as yet have a name.” (*Ralph Blum with Judy Blum: “Beyond Earth: Man’s Contact with UFOs”*.)

## Abilities of UFOs

Some observations of witnesses, including military and commercial pilots, are that UFOs may: travel at over 25,000 mph in our atmosphere without burning up; make right angle turns at over 15,000 mph; materialize or dematerialize, change shape, or several merge into one (*“Alien Encounters”*).

Even though the evidence at landing sites suggests UFOs are heavy objects, “...their startling departures, sudden stops, and right angle turns at high speed require them to be virtually massless.” (*Engineer James Campbell as quoted in “Alien Encounters”*.)

Because of these singular abilities, most UFO researchers have suggested that these crafts are interdimensional rather than extraterrestrial, implying that they enter and depart through some gateway or portal leading to another dimension (level of existence).

## Aliens and Abductions

“One of the purposes for which UFOs travel to earth is to abduct humans to help aliens produce other beings. It is not a program of reproduction but one of production. **They are not here to help us; they have their own agenda and we are not allowed to know its full parameters.**” (*“Secret Life”*: David Jacobs, as quoted in *“Alien Encounters”*.)

Many Christian (and even non-Christian) UFO researchers agree that these “aliens” are not beings from other planets, but are evil spirits which have, through biological experimentation, produced bodies in which they are able to manifest themselves. They are now seeking ways by which they can merge themselves with humans.

Pulitzer Prize-winning author, professor, psychiatrist, and leading abduction researcher, John Mack, MD, wrote regarding abductions:

“...there is a compelling, powerful phenomenon here that I can’t account for in any other way, that is mysterious. Yet I can’t know what it is but it seems to me that it invites a deeper, further inquiry...”

According to Dr. Mack, common characteristics of the abduction cases he studied were: a high degree of consistency, the absence of psychiatric illness (in subjects), witnessed by others, physical changes, and appearance of lesions (on subjects).

Dr. Mack further quotes in his book, *“Abduction”*, that abductees describe their experience as the aliens “breaking through from another dimension, through a slit or crack...entering our world from ‘beyond the veil’ ...as happening in another reality”.

(**Side Note:** [Dr. Mack](#) was killed by a drunk driver while walking home alone after a dinner with friends. At that time, there were many people who considered his work with abductees inappropriate considering his high academic position.)

## Aliens/Demons

“...a number of UFO researchers have concluded that aliens may very well be the modern-day equivalents of fallen angels or demonic entities” to include “fairies, fauns, sylphs, incubi, succubi”, etc. (*“Alien Encounters”*)

According to people who “channel” **\*\*** information from aliens/demons, there are several different species of aliens, including the Grays, the Reptilians, Insectoids, Venusians, the Pleadians (Nordics), etc. They communicate by telepathy or by possessing the vocal chords of human beings. Within a spacecraft, they may show images on a large screen. Each individual species has its own type of spacecraft. Some “channelers” say the different species compete and are at war with each other.

## What’s Coming and the New Age Explanation

We’ve seen how New Age beliefs attempt to explain UFOs and aliens as the creators and sustainers of human life. They have also developed an explanation for the trouble coming upon the world following the disappearance of millions of people from the earth, which the Christians call the Rapture (from the Latin *rapturo* and the Greek *harpazo*, both words meaning: to seize, to carry off, to claim for one’s self).

“...Dozens of contactees have delivered messages from ‘alien entities’ which state that Earth changes are not the wrath of God; they are the birth pangs of our Earth mother who is trying to expel the ‘dark forces’ from her surface so she can evolve to a higher dimension of existence.” (*“Alien Encounters”*).

This is calculated not only to explain the disappearance of the Christian church, but to assure New Age followers that they should not be concerned about this; they will be given instructions as to what they need to do to “help mankind survive through this cataclysmic period”.

## Hybrids in the World Today

Whether they are demonic entities, or fallen angels masquerading as aliens from other planets, they (the aliens) obviously are interested in the human reproductive process. This has been revealed by the huge number of UFO abductees. In the opinion of many Christian researchers, they are attempting to create “alien”/human hybrids, with the ultimate goal of canceling out the human genetics to make the new creations a fully supernatural creature; or, if not completely dispatching humans, then at least inspiring their worship. Satan has always ardently wished to be worshiped!

Some of these researchers believe there are already hybrids among us who are indistinguishable from humans. Closely related to the hybrid theory are those of transhumanism and artificial intelligence, which will be addressed in future articles.

## Antichrist

If fallen angels can consort with human women, then certainly Satan, being a fallen angel himself, can do likewise. The popular expectation that the coming world leader, also known as Antichrist, is that he will be raised up through a political platform. Is it possible that he will be a literal son of Satan? It was discussed in another article how Satan loves to counterfeit the works of God, insofar as he is able to do so. Instead of coming to power by political means, will Antichrist somehow be associated with UFOs and the benevolent-seeming “aliens”? Would not that make it very easy for the world to be in awe of him, and for every world religion—including Muslims, Buddhists, Hindus, etc.—to accept him?

**(Side Note:** We should keep in mind that although “anti” means “opposite”, a more appropriate term would be “pseudo-Christ”, not the opposite of Christ. Opposite implies equality, and Antichrist will not be equal to Jesus Christ in any way. Neither is Satan equal to the Son of God; Satan is a mere fallen angel, though with great power, who has already been condemned and is awaiting punishment. See [II Thessalonians 2:1-10.](#))

New Agers are also expecting a coming world leader, once the “dark forces” (Christians) have been removed. One of the New Age leaders has written a book, which he says was telepathically conveyed to him by aliens. He states that there will come one who stands tall with a “shining countenance” and “attired in a single garment now known to you”. He will work miracles and anyone who doesn’t believe in him will be “removed”.

## Summary

It appears that the world is being conditioned to accept UFOs and “alien” visitors as the saviors of mankind, the planet, or both. Even if they are warring among themselves, they probably all have the same agenda. “Their uniformity of behavior suggests they are all under one command.” (*“The Omega Conspiracy”: I.D.E. Thomas*).

There are enough well-documented cases of UFOs and alien abductions for Christians to take them seriously. We should not be surprised or allow ourselves to be deceived. They will come with “all lying signs and wonders”. Fallen angels and demons have the capability of masquerading as many things, including “aliens”.

If in doubt, go to the Bible, and keep in mind Luke 21:28: “And when these things begin to come to pass, then look up, and lift up your heads, for your redemption draweth nigh”!

---

## NOTATIONS:

---

\* A ham operator picked up a transmission that was confirmed not only by a NASA employee but also by the chief of communications that during the mission of Apollo 11, astronauts Neil Armstrong and Buzz Aldrin stated that UFOs were lined up along a crater of the moon observing their actions. NASA has never officially confirmed this, and Armstrong and Aldrin have denied it. However, several other astronauts have openly claimed to have seen UFOs in space.

\*\* Definition of channeling: conveying messages from another entity or entities while in a trance-like state.

**“The chief purpose of demonic beings is to thwart God’s entire plan of redemption.” ... “There is no other defense against demonic deception but a thorough acquaintance with the truth.” (I.D.E. Thomas, “The Omega Conspiracy”)**

### SOURCES AND RECOMMENDED READING:

“[Alien Encounters](#)” by Chuck Missler and Mark Eastman. This excellent and thought-provoking book also has a checklist for potential contactees and abductees. According to this book, the “alien” agenda includes: globalism, ecumenism, personal immorality, pantheism, moral relativism, and claiming the Bible is not the Word of God. See also [As the Days of Noah Were: Return of the Aliens](#)

“[The Omega Conspiracy](#)” by I.D.E. Thomas. A pioneering book on UFOs and the Nephilim.

“[Beyond Earth: Man’s Contact with UFOs](#)” by Ralph Blum with Judy Blum. This is an older book but interesting.

[UFOs: The Great Last Days Deception](#) by Billy Crone. I haven’t read this book yet but have listened to and read other teachings by the author.

UFO movie of interest, both versions: “The Day the Earth Stood Still”, 1951 and 2008. Aliens seem to be good and god-like. (*The 1951 version is far superior, except for special effects.*)

RELEVANT WEBSITE: [ShattertheDarkness.net](#) Russ Dizdar is a Christian pastor, evangelist, writer, and speaker, specializing in demonology. He and his staff help people who have had encounters with UFOs, and victims of satanic ritual abuse (SRA).

### Extra Note: Book Review

While browsing through a local restaurant/gift shop, I was surprised to discover, next to the toy section, a book displayed for sale entitled “Alienology”. It states on the back cover that it is suitable for ages 6 and up.

After doing some research, I discovered that the author has written a series of “ology” books, including Wizardology and Dragonology. It is written very tongue-in-cheek and is, in some places, outright hilarious.

The book purports to be written by a Professor Allen Gray, Faculty of Paranormal Studies (not the real author). Allen Gray turns out to be, by the end of the book, a friendly and helpful alien named Alpha Gray.

My concern with this book is that it mixes fact with fiction, attempts to explain away actual documented cases of unfriendly UFO activity, and supports the Big Bang theory of the creation of the universe.

The main premise of the book is that aliens do exist; they travel from great distances and live on other planets; most are friendly and are trying to help mankind. They abduct humans in order to study their DNA, to find out if they can be useful in defeating the “bad” aliens. Supposedly there are competing species of aliens who war with each other. The book pokes fun at the 1961 case of Barney and Betty Hill, who were allegedly abducted by alien creatures and subjected to bizarre experimental procedures.

In describing one particular species of aliens, the book states: “Taureans are hermaphrodites—they have both male and female reproductive organs. They form breeding pairs in which either partner can act as the male or female”. (Page 10).

This book, which pretends it doesn't intend to be taken seriously, in my opinion is just one of the many ways in which the public is being indoctrinated to the idea that UFOs are inhabited by aliens from other planets. Doesn't this sound like the propaganda outlined above? And does this book really sound suitable for six-year-olds?

If and when UFOs arrive on the scene, people (even children) won't be as surprised or alarmed as they might have been had they not been prepared, and many will no doubt welcome them with open arms!

See the Bible Study entitled: *Why Did God Destroy the Earth with a Flood?*
